Logo

Primary Use Case

The logo's wordmark is an Arial Black. It is legible, clear, bold and impactful, just like Sydani Group. This stacked version logo is preferred for most applications.

Secondary Use Case

The horizontal lock-up logo can be used when the main logo does not fit comfortably in the allotted space or cannot be clearly represented—like in horizontal applications.

The double vertical wordmark lock-up logo should be used only on social media branding.
